THE BIG UNION PLAN UP TO A. F. S. F. L.

NEW COMMANDER OF  
American Legion  
Begins Duties

DEFENSIVE  
MERGER OF  
ALL TRADES  
IS SOUGHT

Labor Would Band Together for  
Unity of Action in Fight-  
ing Wage Cuts.

DENVER, June 16.—Proposal of  
a "big union" in the American Fed-  
eration of Labor has been made for  
the first time in the federation's his-  
tory.

Two resolutions introduced today  
provide for united action by all  
crafts affiliated with the federation,  
which would enable the body to op-  
erate in effect as one big union on  
matters vital to organized labor in  
general.

GENERAL STRIKE POWER.

One resolution would empower the  
executive council with the authority  
to declare a general strike to combat  
nation-wide movements to reduce  
wages and working standards.

The other, introduced by delegates  
from the West Virginia State Fed-  
eration of Labor, declaring that "orga-  
nized labor, having reached the point  
in its history of advancement where  
there must be a unit of understanding  
and action, one craft with another,  
or be destroyed by the enemies of our  
cause," provides that in their con-  
tract all craft shall insert a clause  
to crush organized labor, a resolution  
introduced by Matthew Woll, eighth  
vice president of the federation, pro-  
poses that the executive council make  
an exhaustive investigation of the  
system and ascertain the possibilities  
of pooling all the proxies held by or-  
ganized labor in mutual insurance  
companies to combat the interest in-  
imical to the unions "with their own  
weapons."

Politics and the Irish question will  
keep the convention seething from now  
on, according to developments today.

The movement to oust Samuel Gom-  
pers, for thirty-nine years head of  
the federation, has come to a head  
today. The campaign to elect John  
L. Lewis, head of the United Mine  
workers of America, the largest  
union in the federation, is now in the  
open.

PREDICT LEWIS CAUSES.

Lewis' supporters are actively at  
work in his behalf making known  
that he is a receptive candidate and  
that his activities and Lewis' silence  
have won Gompers with apprehen-  
sion. The Lewis forces and the railroad  
union, the drawing up of a program for  
a complete reorganization of the ex-  
ecutive council, and the uniting of  
all factions of the opposition to  
Gompers into a "solid phalanx."

Gompers also has men out "feeling"  
sentiment. These, predicting col-  
lapse of Lewis' boom, point to splits  
in Lewis' own delegation. Frank Far-  
ington, Lewis' leader, of Springfield,  
Ill.; Robert Harlan, who ran against  
Lewis in the miners' last election, and  
Alex. Howat, the "fighting miner" of  
Kansas, have been openly hostile to  
Lewis. Two other members of the  
delegation are classed as doubtful,  
while the remainder are certain to  
support Lewis.

"We do not love Lewis, but that is  
not saying we love Gompers," said  
Harlan, who is head of the miners of  
the State of Washington. "As a mat-  
ter of fact, we have not decided on our  
course in event Lewis runs. The rank  
and file of the federation is in re-  
volt; the king is dead. The ques-  
tion is whether we should take any-  
one, however undesirable he may be,  
to succeed the king."

GRAND RUKUS OVER ERIN.

Already there is a grand rukus on  
over the Irish question with Peter J.  
Brady, supervisor of the city record  
and vice president of the British  
Irish, openly charged that Brady has  
"betrayed his word" to Harry Bol-  
and, secretary to Eamonn de Val-  
era, president of the "Irish Repub-  
lic."

His refusal to sign the resolution  
providing for a boycott of British  
made goods has brought a telegram  
from Boland calling on him to keep  
his promise, it became known today.

It is declared that Brady on his  
way to Denver on the special train  
which brought Gompers and his  
party showed the resolutions as

ATTORNEY  
HOLDS WAR  
DEAL VALID

See President and Declares  
Company of Ex-Officers Had  
Right to Make Purchases.

The United States Harness Com-  
pany will ignore President Har-  
ding's order annulling the contract  
which the harness company has  
with the War Department for the  
disposal of surplus harnesses, Frank  
J. Hogan, counsel for the harness  
concern, announced today.

HOGAN AT WHITE HOUSE.

Hogan called at the White House  
and served notice that his clients are  
of the opinion that the President has  
no authority to annul the contract and  
will ignore his action.

The President's action was taken  
upon advice of the Attorney General,  
after it had been disclosed that the  
contract was entered into while of-  
ficers of the harness company were in  
positions in the War Department.

The value of the harness has been  
variously estimated as from \$27,000-  
000 to \$150,000,000.

Attorney General Daugherty has  
given an opinion that the contracts  
violated sections of the criminal code,  
prohibiting officers or employees of  
the Government from having an in-  
terest in Government property or con-  
tracts.

EX-OFFICERS IN COMPANY.

The principal officers of the United  
States Harness Company are Col.  
George B. Goetz, Major J. C. Byron,  
Capt. Henry W. Benke, and Capt. Axel  
F. Cochran, who served in the army  
during the World War as emergency  
officers.

Secretary Weeks stated that the  
case was in the hands of the De-  
partment of Justice for such action  
as the Attorney General deemed  
proper. He said that the only other  
war contract referred to the De-  
partment of Justice was the so-  
called "salmon case," involving the  
sale to the Government of 5,000,000  
cans of salmon which were held by  
experts to be unfit to eat.

The purchase of harness and other  
leather materials for the army and  
the sale of surplus supplies after the  
armistice have been the subject  
of many charges. The contracts with  
the United States Harness Company  
were made on September 3, 1920, by  
F. C. Morse, director of sales of the  
War Department, and was approved  
by Secretary Baker.

The United States Harness Com-  
pany was to remake such harness as  
needed, remaking and then sell it,  
the Government to receive 60 per cent  
of the gross receipts and the com-  
pany 40 per cent.

A minimum price was fixed on the  
various kinds of harnesses as for ex-  
ample, artillery harness, from \$14.00  
to \$18.00.

SIX KILLED IN WRECK  
CAUSED BY WASHOUT

OMAHA, Neb., June 16.—Loss of life  
in the wreck of eastbound Chicago  
and Northwestern train No. 606, from  
Lander, Wyo., to Omaha and Chicago,  
which early today plunged into Cot-  
tonwood creek, near Crawford, Neb.,  
is not expected to reach more than  
six. Early reports of the disaster  
were exaggerated.

The train consisted of a Pullman  
sleeper, chair cars, coaches, a smoker,  
and baggage and express cars. As the  
train was passing over Cottonwood  
creek, swollen by storms, the struc-  
ture gave way, six of the coaches, it  
is reported, falling into the stream  
and becoming partly submerged.

One of the chair cars is reported to  
have landed on top of the smoker.

A relief train was sent from Chad-  
ron, 30 miles from the wreck scene,  
which is near the Wyoming border.

ROPE HAMMOCK RESCUES  
BOY STUNNED ON LEDGE

NIAGARA FALLS, N. Y., June 16.—  
Eight-year-old Earl Parnell, who was  
recovering today from slight injuries  
and severe shock sustained prior to  
his miraculous rescue from a rock  
half way down the river gorge. Had  
the boy moved a few inches as he  
lay stunned on the narrow ledge he  
would have been dashed to death.

His father, two detectives, and a  
patrol driver rescued him. The boy had  
sprung from the window, landing in a  
crumpled heap on the street.

ANGLO-SAXON ENTENTE  
WELCOMED BY GERMANY

BERLIN, June 16.—The possibility  
of future close accord between Amer-  
ica and Great Britain is welcomed by  
the German press.

"Germany welcomes Anglo-Saxon  
world cooperation because it will then be  
no longer necessary for England to  
purchase French support at the ex-  
pense of Germany," said the Lokal  
Anzeiger today.

The Vossische Zeitung and Deutsche  
Zeitung regard the movement for an  
Anglo-American entente as a natural  
one, in view of the mutual desire to  
cut down naval budgets.

LITTLE HOUSE OF PEGGY'S  
GRANDMOTHER BURNS

NORFOLK, Va., June 16.—A little  
one-story house at Lee and Middleton  
streets, where Marguerite Upton, now  
Peggy Joyce, actress and divorcee,  
formerly lived, was damaged by fire  
today.

The roof caught fire from live  
sparks falling from the chimney.

The house is occupied by Mrs. Ed-  
ward Rudd, Peggy's grandmother.

FIRE TRAPS  
CHILDREN IN  
THEIR BEDS

Mother Leaps to Fatal Injuries  
as Meyersville, Md., House  
Is Swept by Flames.

CUMBERLAND, Md., June 16.—  
Four children were burned to death  
and a woman is dying in the hos-  
pital here as a result of a fire which  
today swept the home of John Resh,  
a miner, at Meyersville, Pa., about  
thirty miles from this city. The  
house was burned to the ground early  
this morning.

WIFE LEAPS TO STREET.

The dead:  
Anna Becker, fourteen years old.  
John Resh, four years old.  
Jordana Resh, two years old.  
An infant four weeks old.

Mrs. Resh, wife of the owner of  
the home, leaped through the flames  
from a second-story window to the  
street. She is suffering from a  
broken spine and internal injuries.  
She was rushed to the Cumberland  
Hospital, where physicians say there  
is but slight hope for her recovery.

Shortly after daybreak, Resh got  
up, started a fire in the kitchen stove,  
and made his breakfast. Then he  
went to work. A defective flue is  
thought to have started the flames,  
which soon licked their way to the  
second story, where the other occu-  
pants were asleep.

All the children were burned to  
death before they could get out of  
their beds. The house is situated on  
the top of a hill. Firemen had diffi-  
culty in getting their apparatus to  
the scene of the blaze. The water  
supply was poor.

A crowd gathered quickly outside  
the home. Fanned by a brisk wind,  
the flames spread so fast that the  
householders were forced to form vol-  
unteer bucket brigade were abandoned  
as useless.

A white-clad figure was seen at one  
of the flame-ringed windows of the  
second story. Before the bystanders  
could seize a blanket, Mrs. Resh had  
sprung from the window, landing in a  
crumpled heap on the street.

'Cousin' Of Hoover  
Is Jailed As  
'Trigamist'

CHICAGO, June 16.—Raymond  
Lee Hoover, of Louisville, Ky.,  
who claims to be a "first cousin  
to Secretary Herbert Hoover, sir,"  
awoke today in the county jail  
following charges of bigamy  
brought by Mrs. Pearl Holbert  
Hoover, his second wife.

Hoover awoke in the same cell  
recently occupied by "Cousin"  
Everett Harding. Jail officials  
said they intended reserving the  
place for "cousins" of statesmen.

Hoover, thirty-three, is alleged  
to have been married three times.  
His latest matrimonial adventure  
was yesterday when he married  
Hattie Algrim. Hoover declared  
his second marriage was a  
"fake." He admitted having a  
ten-year-old daughter by his first  
marriage.

GUNS TAKEN FROM  
ERIN-BOUND SHIP  
OPEN LEGAL FIGHT

\$150,000 in Arms Seized on  
Steamer "East Side" Claimed  
By United States.

By International News Service.

NEW YORK, June 16.—Between  
500 and 600 Thompson machine guns  
and other war materials which were  
seized on board the freighter East  
Side in the belief that they were con-  
signed to the Irish republican army,  
were under a joint guard of police-  
men and Federal customs officers in  
Hoboken today while the United  
States authorities made an investi-  
gation to try to find out who had  
purchased the arms, who had shipped  
them, and the identity of the con-  
signee.

TAKEN FROM FREIGHTER.

The war supplies were taken from  
the freighter just a short time  
before she sailed for Norfolk. Her  
ultimate destination is an Irish port.

The machine guns, together with  
many varieties of magazines, a case  
of ammunition, and 175 boxes be-  
lieved to hold small arms, are valued  
at \$150,000. The machine guns are  
known as Thompson sub-machine  
guns and are the latest thing in  
death-dealing machinery, being cap-  
able of firing more than 600 shot a  
minute.

The search warrant upon which  
the machine guns were seized had  
been issued by the Hoboken police.  
Afterward a difference of opinion de-  
veloped between the Hoboken police  
and the Federal authorities as to  
the real custodians of the weapons,  
so it was decided to put a joint  
guard over them until the matter  
could be decided at a hearing before  
Recorder Adolph Carsten at Ho-  
boken.

When the proceedings were called  
before Recorder Carsten at Ho-  
boken to determine whether the po-  
lice or the Federal authorities should  
have custody of the arms, the po-  
lice officials were not ready to  
proceed, so an adjournment was  
taken until this afternoon.

ON LEASED VESSEL.

The machine guns had been manu-  
factured by the Colts Patent Firearms  
Manufacturing Company.

The East Side was not listed in Lloyds  
Register of Shipping for 1920. She is  
said to have been built by the United  
States Shipping Board and leased to  
the Comopolitan Shipping Company.

York said that officials of the port of New  
York said that "certain sum had been  
detained pending an investigation,"  
but refused to say if the authorities  
had any definite information about  
from this port to Ireland for use by  
the Sinn Fein. The machine guns had  
been concealed in sacks that were  
hidden in the East Side's coal bunkers.

DUBLIN, June 16.—Several casual-  
ties were sustained by a squad of  
British government military when a  
train was bombed at Drum-Condra  
this morning. A brief gun battle  
fought between the troops and their  
assailants.

Cleveland Bricklayers Strike.

CLEVELAND, Ohio, June 16.—Dis-  
satisfied with an arbitral wage award  
of \$1.04 per hour, union bricklayers  
here went on strike again this morn-  
ing, practically tying up all build-  
ing construction in Cuyahoga county.

lations With Banker's Wife.

POUGHKEEPSIE, N. Y., June  
16.—Mrs. James A. Stillman, wife of  
the former president of the National  
City Bank, was smiling, cheerful,  
and confident when the hearing in  
her husband's divorce suit was con-  
tinued today before Referee Daniel  
J. Gleason.

SERVANTS TO TESTIFY.

It was expected that more former  
servants would be called, and that the  
testimony would be along the same  
lines as yesterday, when seven wit-  
nesses, including Mrs. Percy A. Rocke-  
feller, Mr. Stillman's sister, were called  
in the indirect attack against the  
legitimacy of baby Guy Stillman.

Lawyers for the former banker  
were in conference during the morn-  
ing, and it was regarded as possible  
that the night advance their plans  
and put Hugh Russell, of Buffalo,  
upon the stand today instead of wait-  
ing till tomorrow.

Dr. Russell treated Mrs. Stillman at  
Buffalo and had testified in a pre-  
vious session that Mrs. Stillman  
confessed to him that Fred Beauvais,  
named as co-respondent by James A.  
Stillman, is the real father of Guy.

John F. Mack, guardian of Guy, and  
John F. Brennan, chief of counsel for  
Mrs. Stillman, were prepared to give  
the Buffalo osteopath a sharp and  
vigorous grilling in an effort to break  
down his story.

Mr. Mack has already lodged a re-  
sponse to the charges made by Mrs.

MAID FRUSTRATES PLOT  
TO KIDNAP WHELAN BABY

SYRACUSE, June 16.—Suzanne  
Whelan, Syracuse's "millionaire  
baby," is being closely guarded  
from possible kidnapers. The fifteen-  
month-old child, daughter of Louis  
Whelan, of the wealthy tobacco fam-  
ily, will be removed at once to safer  
quarters.

An attempt to kidnap the baby was  
reported Saturday night by a maid  
in the home of the Whelans. She  
saw two strange men have been  
seen lurking in the vicinity.

LENIN EXPLAINS CONCESSIONS  
SOVIET GIVES TO CAPITALISM

The following dispatch is the first complete explanation of the con-  
cessions that the Bolshevik government of Russia has just made to the  
capitalist class. It is authentic, coming from Nikolai Lenin, head of the  
Soviet government. This change in economic policy is the most impor-  
tant event in the history of Russia since the Bolshevik revolution of No-  
vember, 1917.

MOSCOW, June 16.—Nicolai Lenin, high priest of bol-  
shevism and the head of the Soviet government of Russia, today  
explained the full significance of the concessions which the Reds  
have just made to the capitalists of the world.

Ever since the Bolshevik revolution,  
free trade of every kind had  
been under the ban and every form  
of capitalism had been suppressed.  
But the failure of the spring crops,  
due largely to weather conditions,  
seriously jeopardized the food sup-  
ply of the nation, and the peasants  
rebelled at the idea of turning prac-  
tically all of their produce over to  
the government for distribution  
among the workers in the cities.

To save the nation from starvation  
and from possible rebellion of the  
peasant class, the Bolsheviks have  
decided to make certain temporary  
concessions to the capitalists of  
other nations. But Lenin explains  
that this change in policy does not  
mean a return to the hated capi-  
talistic system; it is merely a tem-  
porary expedient to enable Russia to  
obtain from other countries the food  
and supplies which have been kept  
from her by the allied blockade.  
Once Russia has regained her eco-  
nomic equilibrium, Lenin explained,  
the clamps will be screwed down on  
this phase of capitalism.

EXPLAINS CHANGE OF POLICY.

The wave of reaction that has  
swept the world following the great  
war is held largely responsible by  
Lenin for the change in policy. The  
Bolsheviks had expected confidently  
that other countries would follow the  
example of Russia and establish  
Soviet governments, and Lenin re-  
peatedly stated that Sovietism would have  
a most difficult time maintaining its  
position. But the spread of bol-  
shevism has been temporarily checked.

ACID-FILLED EGGS THROWN

ATLANTA CITY, June 16.—Acid-  
filled eggs hurled at a freshly painted  
house at 138 South North Carolina  
avenue, evidently to disfigure the  
paint, has given the police a new  
mystery.

The cottage is owned by the aunt

ent year, Lafferty has attended to  
allotting the painting work on the

whose home is in Philadelphia, gave  
the job to a Philadelphia contractor.

CHICAGO, June 16.—Raymond  
Lee Hoover, of Louisville, Ky.,  
who claims to be a "first cousin  
to Secretary Herbert Hoover, sir,"  
awoke today in the county jail  
following charges of bigamy  
brought by Mrs. Pearl Holbert  
Hoover, his second wife.

Hoover awoke in the same cell  
recently occupied by "Cousin"  
Everett Harding. Jail officials  
said they intended reserving the  
place for "cousins" of statesmen.

Hoover, thirty-three, is alleged  
to have been married three times.  
His latest matrimonial adventure  
was yesterday when he married  
Hattie Algrim. Hoover declared  
his second marriage was a  
"fake." He admitted having a  
ten-year-old daughter by his first  
marriage.

GUNS TAKEN FROM  
ERIN-BOUND SHIP  
OPEN LEGAL FIGHT

\$150,000 in Arms Seized on  
Steamer "East Side" Claimed  
By United States.

By International News Service.

NEW YORK, June 16.—Between  
500 and 600 Thompson machine guns  
and other war materials which were  
seized on board the freighter East  
Side in the belief that they were con-  
signed to the Irish republican army,  
were under a joint guard of police-  
men and Federal customs officers in  
Hoboken today while the United  
States authorities made an investi-  
gation to try to find out who had  
purchased the arms, who had shipped  
them, and the identity of the con-  
signee.

TAKEN FROM FREIGHTER.

The war supplies were taken from  
the freighter just a short time  
before she sailed for Norfolk. Her  
ultimate destination is an Irish port.

The machine guns, together with  
many varieties of magazines, a case  
of ammunition, and 175 boxes be-  
lieved to hold small arms, are valued  
at \$150,000. The machine guns are  
known as Thompson sub-machine  
guns and are the latest thing in  
death-dealing machinery, being cap-  
able of firing more than 600 shot a  
minute.

The search warrant upon which  
the machine guns were seized had  
been issued by the Hoboken police.  
Afterward a difference of opinion de-  
veloped between the Hoboken police  
and the Federal authorities as to  
the real custodians of the weapons,  
so it was decided to put a joint  
guard over them until the matter  
could be decided at a hearing before  
Recorder Adolph Carsten at Ho-  
boken.

When the proceedings were called  
before Recorder Carsten at Ho-  
boken to determine whether the po-  
lice or the Federal authorities should  
have custody of the arms, the po-  
lice officials were not ready to  
proceed, so an adjournment was  
taken until this afternoon.

ON LEASED VESSEL.

The machine guns had been manu-  
factured by the Colts Patent Firearms  
Manufacturing Company.

The East Side was not listed in Lloyds  
Register of Shipping for 1920. She is  
said to have been built by the United  
States Shipping Board and leased to  
the Comopolitan Shipping Company.

York said that officials of the port of New  
York said that "certain sum had been  
detained pending an investigation,"  
but refused to say if the authorities  
had any definite information about  
from this port to Ireland for use by  
the Sinn Fein. The machine guns had  
been concealed in sacks that were  
hidden in the East Side's coal bunkers.

DUBLIN, June 16.—Several casual-  
ties were sustained by a squad of  
British government military when a  
train was bombed at Drum-Condra  
this morning. A brief gun battle  
fought between the troops and their  
assailants.

Cleveland Bricklayers Strike.

CLEVELAND, Ohio, June 16.—Dis-  
satisfied with an arbitral wage award  
of \$1.04 per hour, union bricklayers  
here went on strike again this morn-  
ing, practically tying up all build-  
ing construction in Cuyahoga county.

MAID FRUSTRATES PLOT  
TO KIDNAP WHELAN BABY

SYRACUSE, June 16.—Suzanne  
Whelan, Syracuse's "millionaire  
baby," is being closely guarded  
from possible kidnapers. The fifteen-  
month-old child, daughter of Louis  
Whelan, of the wealthy tobacco fam-  
ily, will be removed at once to safer  
quarters.

An attempt to kidnap the baby was  
reported Saturday night by a maid  
in the home of the Whelans. She  
saw two strange men have been  
seen lurking in the vicinity.

LENIN EXPLAINS CONCESSIONS  
SOVIET GIVES TO CAPITALISM

The following dispatch is the first complete explanation of the con-  
cessions that the Bolshevik government of Russia has just made to the  
capitalist class. It is authentic, coming from Nikolai Lenin, head of the  
Soviet government. This change in economic policy is the most impor-  
tant event in the history of Russia since the Bolshevik revolution of No-  
vember, 1917.

MOSCOW, June 16.—Nicolai Lenin, high priest of bol-  
shevism and the head of the Soviet government of Russia, today  
explained the full significance of the concessions which the Reds  
have just made to the capitalists of the world.

Ever since the Bolshevik revolution,  
free trade of every kind had  
been under the ban and every form  
of capitalism had been suppressed.  
But the failure of the spring crops,  
due largely to weather conditions,  
seriously jeopardized the food sup-  
ply of the nation, and the peasants  
rebelled at the idea of turning prac-  
tically all of their produce over to  
the government for distribution  
among the workers in the cities.

To save the nation from starvation  
and from possible rebellion of the  
peasant class, the Bolsheviks have  
decided to make certain temporary  
concessions to the capitalists of  
other nations. But Lenin explains  
that this change in policy does not  
mean a return to the hated capi-  
talistic system; it is merely a tem-  
porary expedient to enable Russia to  
obtain from other countries the food  
and supplies which have been kept  
from her by the allied blockade.  
Once Russia has regained her eco-  
nomic equilibrium, Lenin explained,  
the clamps will be screwed down on  
this phase of capitalism.

EXPLAINS CHANGE OF POLICY.

The wave of reaction that has  
swept the world following the great  
war is held largely responsible by  
Lenin for the change in policy. The  
Bolsheviks had expected confidently  
that other countries would follow the  
example of Russia and establish  
Soviet governments, and Lenin re-  
peatedly stated that Sovietism would have  
a most difficult time maintaining its  
position. But the spread of bol-  
shevism has been temporarily checked.
